EXPERIENCE

Technical Committee

Davao del Sur State College

DSSC – Junior Rotaract

Aug 2025 – Present

- Developing compelling visual assets and publication materials to promote community service initiatives, including donation drives and environmental campaigns.
- Supporting the primary design team by producing consistent, high-quality graphics for diverse community outreach programs.

Social Media & Technical Committee

Davao del Sur State College

DSSC – Guild of Computing Students

Sept 2024 – June 2025

- Designed engaging digital publication materials to boost student awareness and promote organizational events and activities.
- Collaborated on the conceptualization and design of the official short film promotional poster for the PSITS 2024 event.

Technical Committee

Davao del Sur State College

DSSC – Student Election Commission

Oct 2024 – June 2025

- Created targeted publication materials and visual graphics to drive student engagement and participation during campus elections.
- Assisted the lead design team in producing, formatting, and distributing official election-related visual assets.

PROJECTS

Snuzz (Capstone)

Full-Stack Developer

Jun 2025 – Dec 2025

- Developed a native Android noise detection application from scratch using Kotlin.
- Integrated device microphone hardware to capture and process real-time acoustic data.
- Implemented Firebase to manage back-end data synchronization and cloud storage.
- Designed a responsive front-end interface applying core UI/UX principles.
- Managed project version control and codebase architecture using Git.

DSS-Confessions

Full-Stack Developer

Jan 2026 – Feb 2026

- Developed a custom full-stack web application using React and Node.js for the DSSC community.
- Implemented a Supabase (PostgreSQL) backend to securely manage database operations and user submissions.
- Engineered an auto-generated image feature to allow users to easily share their entries on social media.
- Integrated a mandatory music selection system to attach specific songs to individual user confessions.
- Secured the platform by enforcing XSS filtering, API rate limiting, and Row Level Security (RLS) policies.

DSS-Connectify

Full-Stack Developer

Feb 2026 – Present

- Developing an Android-focused social media application for the DSSC community using React Native.
- Designing intuitive, Android-optimized user interfaces tailored for student networking and campus engagement.
- Structuring scalable front-end architecture to support upcoming real-time feeds and user interactions.
- Establishing foundational project infrastructure and version control for continuous development.

ACTIVITIES

PSITS 2024 Short Film Making

Davao City, Philippines

Co-Director & Poster Designer

Nov 2024 – Dec 2024

- Co-directed the creative production of a short film for the PSITS 2024 event, managing visual direction and team coordination.
- Designed the official promotional poster, utilizing graphic design tools to create compelling marketing materials that drove audience engagement.

EDUCATION

Davao del Sur State College

B.S. Information Technology

Matti, Digos City

Expected Graduation, August 2026

- o **Related Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Artificial Intelligence & Machine Learning

SKILLS

Programming Languages: JavaScript, Kotlin, Java, Python, SQL (PostgreSQL, MySQL), HTML, CSS

Front-End & Mobile Development: React, React Native, Android Development, GSAP

Back-End & Cloud Services: Node.js, Django, Firebase, Supabase

Design & UI/UX: Figma, Adobe Illustrator, Affinity, Canva, UI/UX Design, Graphic Design

AI Tools: ChatGPT, Gemini, Claude, DeepSeek

Tools & Architecture: Git, GitHub, System Architecture
